Customer Reviews

As most people know I am a true student and lover of all of the collected works of LRH especially those pertaining to Dianetics and Scientology. Because of this I had to buy this book and luckily it was cheap at only \$1.05. The truth is that if you don't want to pay for Scientology books you can get them for free at Half Priced Books. They get so much LRH literature that they throw it all away every few months. This book is an illustrated walk through some of the basics of Scientology. If I liked it why the bad review? Well it seems to me that this material should be included in the same book as Dianetics since they cover the same subject. Saving us money would allow us to put more money towards Ideal Orgs. I finally gave this book to Half Priced Books, I'm guessing they threw it away or gave it away.

Very pleased! the edition was a little frayed but since they are not printing them anymore I was very happy to get the last copy! Thanks!

Easy to understand. These are basic ideas that you can learn to simplify your understanding of principles.

The title might make this sound like a children's book, but it's not. It's a great introduction to the basics of Scientology - the illustrations help with understanding some of the concepts. This book explains the difference between the spirit, mind, and body. It explains communication, the cycle of action, and basics in understanding people and improving relationships. I recommend this to anyone who would like an introduction to the subject.
