# SCIENTOLOGY - ABUSE AT THE TOP

## **Synopsis**

A former top insider reveals the nightmare world of violence and abuse at the highest levels of the Church of Scientology. One review states: "At home alone, a 14 year old girl takes a phone call from Scientology. This starts a quarter of a century journey of manipulation, betrayal and sexual, physical and mental abuse. This journey leads to the highest management echelon and one woman's courage to break free. A real page-turner." Mark P. Another writes: "Amy Scobee has written a book unlike any other exposé of Scientology. She actually was at the top of International Management for 20 years, and oversaw the recruitment of Hollywood stars into the Church of Scientology. She witnessed the abuse of top managers by their senior, David Miscavige. She writes convincingly of the human rights violations she endured while on the Rehabilitation Project Force, a thinly disguised slave labor camp. Her book is enjoyable to insiders and laymen alike, with a glossary of terms provided, and plentiful footnotes. This is an important contribution to understanding the controversy surrounding the Church of Scientology. The glaring spotlight eventually points to Abuse at the Top."

Michael H.

## Customer Reviews

Let this book, "Abuse at the Top", be a guide for generations on how to secure and maintain that human right to question everything! Don't let anyone undermine your right to demand the right to put any ideology under your scrutiny. Unfortunately, like many types of fundamentalism, this pushed "ideal" witnessed here as described so vividly by this book's author, can take years to unravel as any cult's following are usually kept busy with all kinds of dogma digestion, volunteerism with long hours, submerged in sea of daily propagandism around the clock carefully canned through surveys and marketing, along with implied if unspoken consequences should one ever think of straying from. Amy describes in best detail the price of paranoia within the ranks at top. Some of the punishment details described in her book are so gruesome and dehumanizing, simply justified by the founder's written policy of enforcing punishment so gruesome as to get the disgruntled "back to senses". It becomes evident from start that everyone within suffers the symptoms of battery and abuse, reduced into servile denial. I should know because I was there during the 80's. Though I have never met the author, many of the names mentioned in book are people I know directly and gladly restored contact through facebook. Fortunately, I managed to make my exit narrowly escaping personal harm. It is a very painful book to wade through. Though there are an excess of cult slang being the daily picture, there is a generous glossary of definitions and convenient footnotes. Why would anyone allow oneself to suffer so long within that organization and not leave? The cover says a billion words. It is simply because of mental entrapment abound. The book reveals this principle at work on those gullible young minds.
