Jamie: A Highlander Romance (The Ghosts Of Culloden Moor Book 3)

Synopsis

Be sure to read THE GATHERING, the first in the series, to avoid spoilers. From among the Highlander ghosts of Culloden, Jamie jumps at the chance to go next in the great and wonderful scheme to earn his vengeance. He's grateful when he is sent back home to perform the required noble deed. Even though his family passed on centuries ago, the place still has a bit of its old glory—and to his surprise, he's not the only ghost on the property! Elspeth is determined to wait for the love of her life, no matter what Jamie's ghost has to say about it. After all, he's only interested in helping the American film crew. And he's already broken her heart once. She won't let him steal her eternal happiness as well. Jamie will have to face up to his brother's sins or he'll lose his boon. But his most difficult task requires accepting some sins of his own. And if he fails, the lovely Elspeth will suffer—for eternity. PAYTON is next. A NOTE ABOUT THE SERIES: Although the individual stories of Culloden's 79 need not be read in strictest order, The Gathering should definitely be read first to understand what's going on between the Muir Witch and these Highland warriors from 1745. The Reckoning will finish the series.

Customer Reviews

Interesting series...each is a stand-alone read and interesting. The author has chosen an historical

event and developed very moving stories for many of the event's casualties. Ms Muir has placed the reader in each person's life and you look forward to finding how each will reach their goal. Reading the first of the series, *The Gathering*, I think puts the series in a better perspective.

Jamie's story is a wonderful tale of redemption, forgiveness and letting go of grief. I very much enjoyed the plot, characters, humor and environment. Of all the GoCM stories, this is the first that allowed one of the lads to go home. I found that so very important and touching. I am a veteran and going home was always on my mind but once I got there, it was bittersweet. Just like it was for Jamie. The backstory is terrific, plausible and meaningful. The "villain" is a true cad but ultimately, harmless. Loved this entry into the pantheon. Read it everyone. You won't regret it.

This set is so cool. With the witch's help at least 79 +others that maybe in finished business can help these ghosts see the light or have that shot of total HEA. Yeah. Just love this series of books. Looking forward to see which ghost is taken to help out the damsel or to right someone's else's that they knew at that time.

Sorry but was not taken with the book. Gabaldon has spoiled me and I don't find any of the follow up "Highlander" books to have the depth of character and historical interest. I'm not a fan of romance novels per se.

As an Prime member, I was able to borrow this book from the kindle lending library. From what I can tell I believe these novellas can be read in any order, although 'The Gathering' should definitely be read first. This is officially the third installment about Jamie, a highland ghostie who died during the Battle of Culloden. He's given mortality for a day or two and after he completes a noble deed, will be granted a boon. Elspeth is a ghost who died around the same time as Jamie. When he recognizes her and sees her plight, he seizes the opportunity to end her suffering and gain the revenge he's waited 270 years for. Add in an old haunted manor, a ghost hunting crew, and a witch and her magic, and you've got an entertaining read ahead. Well, I do like this author's writing style but I had a few issues with this one. First off, it's short and will probably take most people only an hour or two tops, but the main characters don't meet again until halfway through. As a romance this just didn't cut it and I didn't feel any chemistry or passion at all between these two. Secondly, while I loved Jamie, Elspeth wasn't as well developed and I never really felt like I got to know her. With that being said I did like this for the most part and do feel vested in these 79 warriors. There were

moments when I laughed, smiled, and was charmed. I did note quite a few typos again however and would hope future stories are better edited. In the end I enjoyed it, but feel the execution could have been better. Also, to my knowledge the Battle of Culloden took place on April 16, 1746, not 1745 as the author states multiple times. I'm not a stickler but honestly, I think this is a major error which should have been caught before it was ever published.

Just started reading this series. I usually read other writer's, but decided to take a chance. So far very enjoyable and I have purchase the rest of the series. Might even try some more from this author. Thank you for you gift.

After the first book and assuming there will be one for each ghost I was skeptical that the books would be predictable so far I'm pleasantly surprised. I have debilitating chronic pain due to a car accident followed by emergency spinal surgery several years ago and these books are the perfect length for one of my bad days where I can't get out of bed.

An interesting concept to be sure. But the Battle of Culloden took place on April 16, 1746 and not as the book states, "that 17th day of April, 1745." It's called research, perhaps the author should try it sometime.
