The Pacific Crossing Guide: RCC Pilotage Foundation With Ocean Cruising Club

Synopsis

The Pacific Crossing Guide is a complete reference for anyone contemplating sailing the Pacific in their own boat. From ideal timing, suitable boats, routes, methods of communication and provisioning to seasonal weather, departure and arrival ports, facilities, likely costs and dangers, the comprehensiveness of this new edition will both inspire dreamers and instil confidence in those about to depart. This is the definitive reference on the subject, relied upon by many thousands of cruisers. 'The definitive work on Pacific crossings' Cruising 'A magnum opus of excellence' Flying Fish

Customer Reviews

I bought this book earlier this year to use for my pacific crossing from Panama to Australia and was bitterly disappointed. It appears to be full of great cruising information, however most of the the country port information is way out of date or just plain wrong!! (refer below examples) Papeete (Tahiti) - Book lists stern too marina in town area - this has been a jetty based marina for over 7 years!! Apia (Western Samoa) - Book mentions only anchorage in port area - there has been a marina there for over 8 years and anchorage is discouraged!! Savu Savu (Fiji) - book shows it in completely the

wrong place within the bay, also there are now 2 marina's Vanuatu - Book lists 2 entry ports, there are some 4 entry ports and have been for years Neumea (New Caledonia) - Book lists free night in Marina plus Customs come to you, this has not been the case for some years, you now have to slog it out on foot to all 3 departments. Brisbane (Australia) - Book lists Scarborough marina as entry port, this has not been the case for over 5 years These are but a few of the glaringly obvious errors with this book.

Very enjoyable read. I want to sail from Hawaii to Kentucky, but my wife says a 30 foot boat is not big enough. Well, book doesn't answer the question what is the smallest, safe craft to circumnavigate, but it does answer a lot. Crossing the Panama Canal is one question it does answer. The seasonal ocean currents pages are very helpful. Here in Hawaii we have tradewinds that change seasonally. Hence the North shore winter big wave surfing, and the moderate waves on the South shore in the summer. Now put it on Kindle, I don't want to carry books.
