Age Range: 5 - 9 years

Grade Level: Kindergarten - 4

## Customer Reviews

My 4-year-old son is hugely into Monster Trucks and Monster Jam, so this book is a great pleaser for him. This is the perfect book for young ones who love anything with wheels on it (especially when they're big wheels).

Awesome book for beginning readers. Easy to read text and great photos of all your Monster Jam favorites. There's even a one-page glossary at the end with simple terms like engine, body, frame and my son's favorite new term: "mud-bogging".

I have three year old twin boys who love this book. It is a very basic book- great for introducing children to monstertrucks. It's a favorite bedtime book.

It's alright but not worth the 7 dollars. I was surprised by how thin the book was. I guess I was expecting more pages for it to be worth 7 dollars. Monster Trucks! By Susan E. is much more

informative and has better photos for a lot cheaper.

I bought this book for my 4 year old grand son because it was on his wish list. I don't think anyone realized how small it was when they added it to the list. I was disappointed in the size. It has easily gotten lost on the shelf with the more substantial books. Someone mentioned that it was more like a pamphlet and I agree. I am a big proponent of children having books from a young age but I hardly consider this a "book". Although any child that likes monster trucks would enjoy this book, i would not purchase it again. I would have liked at least a thicker cover and a little more substance to the book itself.

My grandson, age 4, loves trucks of all kinds. He has been to a monster truck show and was captivated. We read this book at bedtime, after breakfast, and at rest time. Plus he looked at the pictures himself.

Very simple book. Too boring for an eager boy who loves monster trucks. I'd suggest it for a 3\_4 year old. This book is NOT very current, and does not have the current monster truck in it. None of the trucks you would see today are in it. So if you have a young boy who likes Monster Jam, he will not recognize any of the trucks

My 2 1/2 year old grandson loves this book and monster trucks. As he has monster jams movies he knows the trucks by name and points to them. I will read it and he says "Do it again" several times! Great book for monster truck lovers.
