Customer Reviews

As a windows 10 user, I can often get confused by the new features and different layouts from the previous versions. I find windows 10 more and more like apple ios and really dislike the version as an overall. The windows app store is just annoying. Fortunately this book helped me alot in this new version of windows. Bill Gates definitely did not do a good job on this one. The book content was short but straight to the point. Definitely saved me time and effort on trying to figure things out by myself

An excellent briefing on what to expect from Windows 10. It efficiently demystifies the new system. I am excited to have Windows 10 installed on my laptop. The old features are still there, but grouped for more streamline use. After reading this book, I have no doubts about wanting to use Windows 10.

Really useful book! This book gave me detailed information about Win10. The important thing is that the author seems to know so much about Microsoft systems in general and has ample knowledge on this Win 10 in particular. The information and tips provided are really necessary and helpful. I

advise that all users who use this system is an excellent tool for self-learning. Amazing guide!

I am so interested to download Windows 10 in my computer however I have no enough idea on how to do it. Thank you so much for this book. It gives me enough idea on how I could do it. Kudos to the author.

It is a very informative book about Windows 10!As for me I have been using Windows 10 as my operating system for a long time. And I really satisfy with this operating system. Windows 10 is a very simple operating system I have ever had.Nonetheless for my work I needed to know almost everything in detail about Windows 10 therefore I read this book. Everything is explained very easy and in simple words. I understood the guide very quickly. Moreover there are a lot of useful tips and tricks how yo operate Windows 10.So, this book really helped me very quickly.It is worth reading!! highly recommend it!

I do not like books of this genre, but this struck me simply! Friends, really, very, very well set out. All the basics of what you need to know and what you need to do to set up the system are in this book. A perfect book for a beginner like me. I really want to learn more about windows 10 and this book help me a lot. The information and tips provided are really necessary and helpful. Friends read, develop, and this book will help you. I advise! Thanks

It is a very helpful book!Windows 10 allows the users to entangle all aspects of your life, work, rest and personal time. The new face of Microsoft's operating system is a significant part of the evaluation of computers, tablets and phones. Windows 10 contains new features and functions which are more convenient, more interesting and easier.And this book allows to understand everything about Windows 10 and manage your system much more efficient.

This book will assist in navigating the latest version of the Windows operating system. Including an introduction to Microsoft's latest browser, Edge. Bringing back the FUN in function, Edge's Cortana integration option really makes the Windows 10 experience come alive. Enjoy annotation, doodling or highlighting favorite parts of the morning paper, directly in the browser window! The new Start Menu is also super practical and totally customizable.
