## Synopsis

Kitty Maguire and Preston Fleming fell head over heels in love the first time they saw each other. They were planning a wedding and the rest of their lives together. But Kitty's great-aunt put an end to all that in the course of one phone call, shattering both of their hearts and ruining their lives. Neither Kitty nor Preston would have thought her capable of telling one lie, much less two. Then when she died suddenly a week later, they never found out. Five years later, Kitty comes back to Caddo, Oklahoma to sell Aunt Bertha's house and to finally put closure on the fiasco that broke her heart in a million pieces when she found out Preston had found another woman. As luck would have it, every time she turns around he's right there. The tingle is still there as well as the love, but he's married... or at least Kitty thinks he is.

## Customer Reviews

The book started off okay, but I kept expecting the writer to flesh out the characters and story. It never happened. As the book continued, it revealed major problems with the story and characters such that I skimmed the last half just to finish it. The writing style degrades in the second half, the

dialogue is poor, and the characters act like teenagers. This reads like a book the author was in a hurry to finish. The leads fall in love at first sight, but we have no idea, beyond some minor reference, what made them fall in love, how they got to the point of wanting to marry as teenagers. The female lead she bounces back and forth emotionally and makes very immature choices. She supposedly has the life experience of a much older person, being a much favored FBI Profiler, but acts and sounds like a teenager. The male lead is basically a whipping boy for her emotional yoyo. He definitely lacks substance, being a "stock" character - a wonderful handsome boy, with whom she falls in love with at first sight. Never becomes anything more than that. There is no effort to flesh him out as a character, and there is no interaction between them until the last couple of chapters and that is cursory at best. There IS no relationship. Another major issue is the time frame of the book. The couple separated at age 18 and did not see one another for 5 years. In that 5 year period the female lead went to college (4 yrs) and graduate school (2-yr) and became a top profiler with the FBI (??). This is absolutely ridiculous. The male lead spent some time in the Navy (4 year hitch??) and became an architect (5 years of college plus apprenticeship to get licensed) and started a company with his brother, designing and building. This is an absolutely impossible timeline. If they had met 15 years later it MIGHT have been possible. Overall it is a waste of time.

I've never enjoyed a book less! After reading one of this author's other books, was anxious to read more of her writing. So totally bored and found myself skipping page after page of total nonsense. I don't know how someone could write one book so endearing and then write something that was a total waste of my time..and money. Try Ladies Room.....far far better..loved loved.

I'm a Carolyn Brown fan, but this one didn't live up to others of hers I've read. I just got tired of it - all bogged down in misunderstandings and emotion about halfway through, just want it to resolve and end.

I enjoy her "people", but graphic sex is all alike in her books. SHE MUST HAVE A FANTASTIC SEX LIFE (AND HARDLY SEE HOW SHE COULD HAVE TIME TO WRITE STORIES) OR EITHER A FANTASTIC IMAGINATION!! Leave it all to Shades of Grey. I wish she would just write sweet love and leave out all the graphic positions etc. Gets a bit boring. Perhaps not for teen agers.

This was a very enjoyable Irish love story....I have only one request to all authors...please quit writing a man's response of....."that's lovely"!!!! I have never heard a man say something or

someone was lovely. Great story and a fun read, but not lovely!!

That Way Again by Carolyn Brown This remarkable writer never ceases to amaze me with her talents. Another great book by the talented writer that will have you screaming at the last page where is more and why did the story stop! She is absolutely remarkable. That Way Again touches the heart, warms and fills the soul with so much love. A love story that has you on the edge of your seat wondering will two lost loves separated then found again will ever reunite. The story of Preston and Kitty was remarkably written. It is a page-turner as the two once again discover the love they had for each other never once faded. People may change but true love always stays embedded in the heart. Ms Brown embraces a wonderfully written love story that will make you feel great inside. Leave you feeling like love abounds everywhere. Ms Brown captures the sensitivity and complete character of Preston and Kitty and captures it in a way that you never forget the characters. It's as if you are right there in the midst of them. Another great story that will always stay embedded in my heart! Two thumbs up and 15 stars to yet another great addition to be added to the books by Ms Brown!

It's a story about deception. Two innocent folks got deceived all because of a woman who got jilted at the altar. She hoped to spare her niece the same fate. It's a great read because the players in the story are proceeding with a great deal of caution, sometimes too much, but then they realize what was meant to be.

This formulaic romance started out pretty good. Then it took a bad turn once the star-crossed lovers decided to figure it out. The female went WAY out of character to prove how independent she was. Tsch. Tsch. Made me want to throw up on her.
