# Handwriting Analysis How To: Top 3 Things Handwriting Reveals (Train Your Eye Book 1)

## **Synopsis**

Report on the top information contained within handwriting by a handwriting expert. Handwriting is "body language" on paper; a "crystallized gesture." Handwriting analysis is the study of handwriting, with the aim of revealing personality. If you have been curious about the true nature of handwriting, this short report gives some basic information about what a person is revealing through their handwriting. (3500 words) Handwriting gives instant insight into personality. Quick, accurate, and amazing.

## **Customer Reviews**

Thank god it was free. The book has nothing to offer. All it mentions are three different starters to analyze handwriting done in approx. 5 pages. It felt like, "Okay author, I see your premise, but where are the tools to build up on that?" If it is a How to book, it should be more than showing the existence of a tool, it should show how to use the tools. This book does not provide that information.

Lisa Schuetz is a master at explaining the nuances of graphology--the study of handwriting analysis. This wonderful little booklet gives an insightful overview of the key components of handwriting analysis and what they reveal. The subject matter comes alive with Lisa's easy to read prose interspersed with handwriting samples which illustrate her points.

As a hiring manager, I need all the help I can get. This book is a small guide that is fast and simple and provides me with one more tool in dealing with people.

What is contained in the book is fine, but there just isn't much to it. Perhaps it is a teaser for further investigation.
