Truly, it depends on your what you are looking for in the hot springs area. It is great in terms of what you can find in Montana and Wyoming, less what is available at the Yellowstone National Park, which is a bit odd to read. In any case, it has an abundance of detail about what is outside the park both in Montana and Wyoming. If you are looking for something outside of Yellowstone National Park, I do highly suggest this book.

This is a book about doing natural hot tubbing.....its fun! It does not cover all the possibilities/locations that are available but it does get you to the standard known places. With info about each local.

Great book, found a lot we didn't know existed. :)

This book is pretty old. It does tell you about the hot springs, just none sound worth going to.
