The CSSI Bible is basically a Saint Benedict Press (SBP) RSV-CE Large Print with apologetics and more religious art inserts, making this a better choice if you're selecting between the two. Useful Faith Facts. One could only wish there were more, especially since they carry their own Nihil Obstat and Imprimatur. Each Faith Fact page points one to a website where more information can be read about subject. At the beginning of the book, you can read a list of the common objections to the Catholic faith. Under each objection, you can see a list of bible verses with short description cited by the Church in defense of its position (belief in purgatory, for instance.) They are useful when you

need a quick look at the biblical citations of the Catholic Faith. At the last part of the book, you can read another list, this time of various "life" topics and where you can find help in the bible on them (jealousy, for instance.) Each color religious art takes up a whole page and they are beautiful. But there are a few stuff that do detract from the book's otherwise fine presentation: 1. The glossy inserts appeared to be scattered at random. You would expect that the Faith Fact about evolution would fall within Genesis. It can be found in Psalms. 2. The Faith Facts do not have an index of pages or table of contents. You will have to flip through many pages and examine every Faith Fact to find the one you're after. 3. As a consequence of number 2 above, the apologetics list at the beginning of the book also do not say which Faith Fact they can be found in. It would have been better if they were referenced to each other by page number for continuity and coherence. 4. Small font in the Faith Facts. You may need to use reading glasses. 5.
