Customer Reviews

So I continue to read the series of Blackwood books & the second was better than the first! The first one gave all the background I needed to carry on reading and not have to try to figure out the who or what behind the characters. I really enjoy the direction these books are going & can't wait for the next and the next... Great book!

Read this second book in the series in two days and it was as great as the first book (which doesn't always happen!). So sad when it was over as I want to know what happens next! More details on Emmy and her husband came in this book and I felt even more interested in her than before. She is one tough lady!! Can't wait to read the next book in the series. You won't be disappointed in this book or series!

I never thought I could follow a series, but this one has me hooked. I didn't think I would be interested in a romantic story, yet this one has more thriller action than most books I've read in a long time. I am happy that I came across this series and looking forward for more to come.

Emma Black's story continues in Into The Black, and I couldn't be happier!! Elise Noble has continued on with Emmy's challenges. Emmy is a very complex and well-developed lead character that I truly have come to love and appreciate. You feel her emotions as she leads you into many thrilling and suspenseful situations. As in Elise's other books, I also found myself quite frequently on the edge of my seat with the suspense of it all. I also chuckled and downright laughed long and loud at some scenes! All in all, Elise Noble has written an exciting mystery thriller that should be a must-read for all suspense and mystery readers!! I was given a free copy of this book in exchange for an honest review.

Elise Noble has outdone herself!!! The 2nd story in the Blackwood Series continues the drama in EMMY's life. What you see is a beautiful invincible woman with fierce loyalty towards her loved ones.... The story makes you realize no matter how indestructible you are you are still human and life carries on no matter what.... EMMY's character is shown going through a lot of hell and action but you still can't help finding her endearing (even though she is THE BITCH) The book is an awesome read and would keep you hooked till the end and panting for more...

Emmy Black is an interesting character to read, she is so accomplished at doing just about anything. I especially liked the part where she goes to Syria and the aftermath, the cave scene was really interesting. Book number one started you out feeling sorry that she lost her husband, Mr. Black, but now I wonder if he really died? Time will tell whether or not the writer is this devious. I was given a free copy for an honest review and I do like this series.

So glad this second book in this series continues with character development and answers the

questions of how the lead character came to be where she is now. Action scenes are believable and don't make the characters super warriors...just real people. Excited for the next adventure.

I LOVED this book! Emmy is awesome and I can't wait to read more of her story in the next book of the series. I really like how much action there is in the books without being overly gory or too graphic.
