Synopsis

Using authentic data to make math meaningful to students, Jay Lehmannâ ™s algebra series uses a curve-fitting approach to model compelling, real-world situations, while answering the perennial question â œBut what is this good for?â • Beginning with interesting data sets, students are asked to find models and derive equations to fit a scenario, helping them to understand functions graphically, numerically, and symbolically. Updated exercises, labs, and graphs deepen studentsâ ™ understanding of core concepts and keeps them motivated to learn. Â ALERT:Â Before you purchase, check with your instructor or review your course syllabus to ensure that youÂ select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition,Â you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Â Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Â Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Â Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.
